

New Levels of Membership in AASP

When AASP was formed a few years ago, a minimum donation of \$10 was established for membership in the organization. The same rule holds true today for new members or renewing members.

All members have been receiving newsletters and other printed materials on a quarterly basis. Unfortunately, the cost of postage and printing, not to mention the staff time used to write and distribute these materials, far exceeds the \$10 minimum donation necessary for basic membership.

Regular member \$25 donation.

Regular members receive full access to our website, including members-only areas such as "Recent News" and our "Advice and Resources" section. Several times a year they also receive AASP newsletters and reprints of pertinent news stories in the postal mail. This level of donation helps to cover our overhead costs in producing and mailing printed materials.

Supporting member \$50 donation.

In addition to the same benefits as regular members, supporting members also receive an AASP keychain with AASP logo and a mini-light. The larger donation helps to support our educational and advocacy programs.

Benefactor \$100 donation.

In addition to the same benefits as supporting members, benefactors also receive an AASP t-shirt or may select a free book from a list of

As a result, changes are being made to levels of donations, types of membership, and membership premiums.

These new rules will apply to people who join AASP after June 1 and to current members who renew their membership after July 1.

Our website and brochures have been updated to reflect these new levels of membership.

If you find a "it's time to renew" label on this page, this means that it has been more than one year since you have made a financial contribution to AASP. Please select a level of membership, fill out the renewal form on the other side of this page, and send in your donation today.

recently published books for solo singles, unmarried couples, single parents, people who are divorced or widowed. Our programs can grow as more benefactors join AASP.

Leadership Circle \$250 donation.

In addition to the same benefits as benefactors, donors in the Leadership Circle receive monthly bulletins updating them on the progress we are making as we implement our educational and advocacy programs.

E-member \$10 donation.

A limited form of membership is available to people who make a \$10 donation. E-members are entitled to full access to our website, including the online version of our newsletter. However, they do not receive printed materials in the mail because the cost of the production and mailing of these materials exceeds the amount of a \$10 donation.

You can make a donation by credit card for a new membership, a renewal, or a gift membership.
