Dear Tom:

We very much appreciate how helpful you have been in graciously providing the ACLU Foundation of Southern California with copies of public policy studies, articles, and other information about family diversity.

As I had explained, the ACLU is exploring the possibility of forming a family diversity project. Your activism that led to these studies and the good work you have done gathering materials will prove invaluable as we evaluate what role the ACLU might play in expanding the concept of "family." We look forward to working with you in this effort.

Sincerely yours,

Harold Gunn
Director of Gift Planning
